Superman's adventures quickly became the centerpiece of the magazine, and his popularity led to the creation of a supporting cast of characters, including Jimmy Olsen, Lois Lane, and Perry White.

One of the most significant contributions of Adventure Comics to the comic book world was the of the Legion of Super-Heroes in 1958. This team of teenage superheroes from the 30th century quickly became fan favorites, and their adventures remain popular to this day.

In addition to Superman and the Legion of Super-Heroes, Adventure Comics also introduced a number of other notable characters over the years, including:

- **Starman:** A crime-fighting scientist who used a gravity-defying belt.
- **Supergirl:** Superman's cousin who gained similar powers and became a popular superhero in her own right.
- **Aquaman:** The king of Atlantis who possessed the ability to communicate with sea creatures.

- **Martian Manhunter:** An alien from the planet Mars with shape-shifting abilities and telepathy.
- **Congo Bill:** A jungle hero who fought against poachers and other threats to the African wilderness.

Adventure Comics concluded its original run in 1983, after 492 issues. The series had weathered numerous changes over the years, including the loss of Superman in the late 1940s and the of new characters and storylines in the 1950s and 1960s.

However, by the early 1980s, Adventure Comics had begun to lag in sales and popularity. DC Comics decided to end the series and replace it with a new title, Action Comics Weekly.
