These Mofos Right Here Volume Coronavirus is a collection of essays, articles, and interviews that explore the impact of the COVID-19 pandemic on the lives of people of color. The book features contributions from a wide range of writers, including journalists, activists, scholars, and artists. The essays cover a variety of topics, including the disproportionate impact of the pandemic on communities of color, the role of racism in shaping the pandemic, and the ways in which people of color are fighting back against the virus and its effects.

The book is a powerful indictment of the racism that has allowed the COVID-19 pandemic to disproportionately harm people of color. The essays in the book document the ways in which racism has shaped the pandemic, from the lack of access to healthcare for people of color to the police brutality that has been used to enforce lockdowns in communities of color. The book also highlights the ways in which people of color are fighting back against the pandemic, from the mutual aid networks that have been created to support vulnerable communities to the protests that have demanded justice for those who have been killed by the virus.
